Special · Healthcare

Special	
Signature	This is a special signature massage available only on EAGLETON.
DUAL Neck · Back	A dual-module massage that quickly relieves tension, focusing on commonly strained muscles around the neck and lower back.
DUAL Revitalizing	A revitalizing massage that quickly and effectively refreshes a sluggish body using a dual-module.
DUAL Relaxation	A full-body massage delivered with gentle and delicate movements of the dual-module.
DUAL Stretching	A signature stretching massage that refreshes and relaxes the entire body.
Toning Exercise I	This massage promotes light contractions in the lower body muscles, supporting enhanced muscle function.
Toning Exercise II	An intensive massage that blends lower-body resistance exercise with cycling motions to support body line improvement.
Resistance Stretching	A massage that combines lower-body resistance exercises with PNF stretching, utilizing neuromuscular mechanisms to help strengthen muscle function.

Healthcare	
Anti-Swelling	This massage employs full-body airbags to assist in alleviating swelling.
Body Ache Relief	A massage that relaxes frequently tense muscles.
Full Body Warming	A relaxing massage combined with soothing heat in a reclined angle.
Energy Boosting	An invigorating massage ideal for waking up the body in the morning.
Stiff Neck Relief	Relaxes and focuses on four muscles attached to the occipital bone and back of the neck.
Waist Relaxation	This massage targets the muscles around the back and waist, using gentle kneading and rolling to relieve tension in the lower back.
Bowel Relief	This massage focuses on the spine and pelvis, incorporating robotic movements to assist with colon activity.
Digestion Support	A massage for digestive health that stimulates key points on the abdomen and massages around the hips after meals.

 Use of modes with stretching functions is not recommended for the elderly or pregnant women.

Focused Area · Stress Relief

Focused Area	
Neck · Shoulders	Relaxes neck and shoulders via kneading and stretching.
Back · Waist	Relaxes back and waist areas through pressure and kneading.
Waist · Hip	Relaxes waist and hips areas through pressure and kneading.
Legs · Feet	An intensive leg massage course in various styles.
Iliopsoas Relaxation	Relaxes the core muscles with static stretches.
Hamstring Relaxation	This massage helps release tension by stretching the hamstrings, which easily become fatigued.
PNF Stretching	A massage that promotes lower body revitalization by combining muscle relaxation with guided movement instructions via voice prompts.
Spine Stretching	A massage that stretches the spine by massaging the area around it, supporting the back of the head, and pulling the lower body.
Stress Relief	
Deep Sleep I	Induces sleep via soft and simple full-body massage and angle variation for 30 minutes. ※ Deep Sleep I ends in a reclined position and does not support the [Settings → Post-massage Settings] function.
Deep Sleep II	This mode gradually adjusts the massage chair angle and massage intensity over time to facilitate restful sleep. ※ Deep Sleep II ends in a reclined position and does not support the [Settings → Post-massage Settings] function.
Soft Massage	A low-noise full-body kneading massage suitable for nighttime use.
Full Body Relaxation	A full-body kneading massage that provides comfortable relaxation while in a reclined position.
Refreshment after Studying	Provides relaxation for tired students after a busy day.
Mental Imagery	A massage with soundscapes evoking a peaceful getaway, for moments of free and relaxed imagination.
Well-being	A massage that provides deep relaxation and music to relieve everyday stress.
Mind Comfort	A massage for healing, paired with music that offers empathetic and comforting messages.

 Use of modes with stretching functions is not recommended for the elderly or pregnant women.

Dual Massage Module Description

Exclusive new XD massage system

1. Wide and Deep XD Massage

- Provides a rubdown massage for a wider area using the long axis of rotation of the XD module.
- Massage balls provide a sophisticated and deep massage while drawing an X pattern.

2. Ergonomic XD Massage Angle

- Adjust the angle depending on the massage technique for a more focused massage on body parts.
- Provide strong massage for big muscles and gentle massage for small muscles.
- Realize similar angles of massage conducted by a real massage therapist.

Dual Massage Module

XD FLEX 마사지 모듈과 3D 마사지 모듈이 상하로 탑재되어 넓은 부위를 더욱 섬세하게 마사지해 줍니다.

번역필요

1. Quick and Accurate Body Contour Recognition

- Massage modules drop along the contour of the body to recognize the accurate location of shoulders by sensing curves and pressures of the human body.
- Even during the massage mode, you can adjust the shoulder position in real time.

2. Weight-sensitive module

- It provides a flexible massage depending on the user's weight.
- Elastic massage module provides a soft massage.

Product Size and Specifications

Product specifications are subject to change without previous notifications due to product improvements.

Customer Support Guidelines

If you encounter minor malfunctions or errors, please refer below before contacting the customer center.

Problem	Cause	Solution
Massage chair does not operate	Did not press the Power button on the controller or inner key	Press the Power button
	Program is not selected	Select and run the program
	Power is not properly plugged in	Properly plug the power into the socket
	Power plug/cable is damaged	Please contact the after-service center
	Fuses is burnt	
	Electrical circuit is malfunctioning	
Massage chair makes noise during use	General machine noise - Air pump vibration, air inlet/outlet noises - Noise due to airbag inflation - Solenoid valves opening/closing - Sheet friction	The noise is general machine noise. There is nothing wrong with the product
	Used the massage chair for a long time	Restart the machine (after 30 min)
	Tear from long-time usage	Please contact the after-service center
Machine suddenly stops during the operation	Accidentally pressed the OFF button	Press the Power ON button
	Massage time has ended	Restart the machine (after 30 min)
Machine suddenly stops during angle change	Check the object detection sensors and whether there are any objects caught between parts	Remove the object and restart the machine
	Excessive usage or shock	Restart the machine (after 30 min)
Massage balls caught or crashed into the interior sheet during the operation	Frictions between the massage balls and sheets	Rubdown technique generates such a phenomenon due to massage balls so it's not a problem
Does not go back to the original position	Excessive use	Please contact the after-service center
Overheated controller	Use the massage chair for a long time	Restart the machine (after 30 min)
Overheated power cable	Excessive load	Restart the machine (after 30 min)
	Other miscellaneous causes	Please contact the after-service center
Airbags do not activate	Air hose disconnected	Please contact the after-service center
	Air-related power cord is disconnected	

Warranty Terms and Conditions

Warranty

- **The warranty covers labor, parts and framework of the massage chair**

- **The warranty period** may differ according to your point of sale, please verify with your seller.

All goods sold hereunder, except accompanying accessories, documentations, or enhancements, are warranted to be free from defects in material and workmanship at the time of delivery to Purchaser and covered for the above, **within the Warranty Period.**

Defective material may be returned to Seller after inspection by an agent of Seller and upon receipt from Seller of shipping instructions specific to the defective goods authorized by Seller to be returned.

Goods returned in accordance with the foregoing procedure will be replaced or repaired, at the option of Seller, and returned to Purchaser without charge.

This warranty is subject to the following LIMITATIONS AND EXCLUSIONS:

Limitations

- This express warranty applies to massage chairs ONLY, and not to accompanying accessories, documentation or enhancements;
 - This warranty is non-transferable;
 - This warranty is valid only within the European Union or United Kingdom depending on the location of your point of sale ;
 - The responsibility of Bodyfriend and its seller and Purchaser's exclusive remedy under this warranty is limited to the repair or replacement of defects in material and workmanship, as set forth above. Bodyfriend and its Seller are not responsible for any consequential damages resulting from the breach of this or any other express or implied warranty with respect to the goods;
 - This express warranty is the only warranty applicable to this transaction. It excludes all other express oral or written warranties and all warranties implied by law with respect to the goods, including any warranties of merchantability or fitness for a particular purpose;
 - This warranty does not extend to any of BODYFRIEND's products which have been subject to misuse, accident or improper installation or storage, maintenance or application, nor does it extend to products which have been repaired or altered outside of BODYFRIEND or its authorized agents, nor does this warranty extend to any labor charges for removal and/or replacement of the nonconforming or defective product or part thereof;
 - Every claim under this warranty or related to this purchase order shall be deemed waived by Purchaser unless made in writing within the period of warranty communicated by your seller of the receipt of the goods to which such claim relates; AND
 - This warranty is void in the event that repairs are made by anyone other than Seller without prior authorization from BODYFRIEND.
- The terms of this warranty shall be governed by the laws of the European Union.

Warranty Terms and Conditions

Exclusions

This express warranty is void without this warranty card and requested information (date of purchase, installation, RMA, etc.).

This express warranty does not cover damage resulting from improper installation or use, neglect, dropped product, unreasonable maintenance, failure to follow instructions, unauthorized repairs, alterations, modifications of original condition, and cosmetic alternations. Furthermore, warranty does not cover damage resulting from improper use of electrical/power supply; loss of power; electrical disturbances, power surges.

Also, damage or cracked screen because of personal misuse, excessive force, transportation damage, theft, abuse, misuse, vandalism, or natural disasters (fires, floods, rust, corrosion, sand, dirt, windstorms, hail, earthquakes, or any exposure to weather conditions) are not covered under stated warranty. BODYFRIEND does not honor warranty for products purchased by or through unauthorized dealers, product used commercially or for commercial purposes, and time lost by owner during the time the product is being replaced, at a repair facility, etc. Natural occurrences such as, but not limited to softening/hardening of foams and composites, fading, wear, pilling of fabrics, natural markings, grain and dye variations in leather, and failure of attach points does not validate issue of warranty, as well as items intended to be periodically replaced by Purchaser during the normal lifetime of a product including, but not limited to batteries, light bulbs, and etc. Seat cover replacement and other accessories are not covered under warranty.

Labor

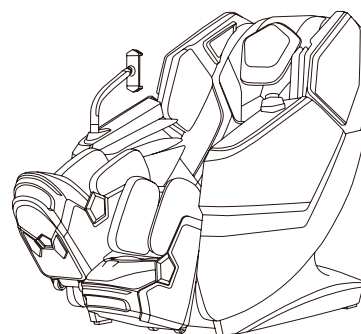

Labor Service Period may differ according to your point of sale, please verify with your Seller. However, Purchaser is responsible for all shipping, duties, and brokerage fees.

Upon expiration of the Labor Service Period, Purchaser shall pay for any labor service charges.

Labor services are limited to the replacement of the defective product or parts with a similar product of equal or less value. If replacement is not accepted by Purchaser, Seller or its labor service provider is no longer responsible for further service under this labor warranty.
